The screenshot shows the Node-RED web interface. The header reads "Node-RED on IBM Cloud". The main content area has a dark red background with the text "Node-RED" and "Flow-based programming for the Internet of Things".

Below the main content, there is a light gray section with the following text:

Node-RED is a programming tool for wiring together hardware devices, APIs and online services in new and interesting ways.

This instance is running as an IBM Cloud application, giving it access to the wide range of services available on the platform.

More information about Node-RED, including documentation, can be found at nodered.org.

On the right side of this section, there is a button labeled "Go to your Node-RED flow editor" and a link labeled "Learn how to customise Node-RED".
